

CITYCLINIC GROUP

FROM THE DESK OF THE EXECUTIVE BOARD
MARBELLA, ANDALUSIA, SPAIN

CONFIDENTIAL TRANSMITTAL MEMORANDUM

DATE: July 4, 2026
TO: The Investment Committee / Institutional Allocation Team
RE: Submission of Confidential Series A Investment Materials – CityClinic Group

Dear Investment Partners,

On behalf of CityClinic Group, I am pleased to formally submit our investment presentation and corporate prospectus for your review regarding our **€12,500,000 Series A Capital Raise**.

CityClinic Group is a vertically integrated MedTech and premium healthcare corporation established to capitalize on profound inefficiencies in the European medical aesthetics and dental tourism sectors. Having successfully built and optimized our flagship operation in Marbella—generating a proven, asset-heavy unit economic model—we are now scaling a highly disruptive, 6-pillar ecosystem that merges physical luxury care with high-margin digital scale.

Our model achieves a powerful competitive moat through three core strategic vectors:

- 1. Unrivaled Patient Acquisition:** Utilizing high-volume retail "Express Kiosks" and our proprietary, self-liquidating gamification syndicate to eliminate traditional Customer Acquisition Costs (CAC).
- 2. Global Geographic Arbitrage:** Collapsing prosthetic and manufacturing costs via our centralized, in-house CAD/CAM laboratory and asset-light pharmaceutical export partnerships targeting premier global hyper-growth markets (Brazil, USA, GCC).
- 3. The Tech Value Multiplier:** Capitalizing on the near-finished models of our **Agentic AI C-Suite**, a proprietary software platform capable of automated predictive analytics, market research, and advisory functions. This division operates as a standalone B2B HealthTech SaaS model licensable to independent hospital networks, shifting our enterprise from a standard clinical multiple to a high-valuation technology multiple.

In alignment with our strict commitment to capital efficiency and investor downside protection, this **€12.5M facility** is engineered as a gated, milestone-based drawdown. We are requesting an **initial tranche of €4,000,000** to fund immediate C-suite scaling, core digital expansion, and flagship rollouts. The remaining €8,500,000 will reside in a structured 24-month model, released strictly against the achievement of predefined operational KPIs.

Operating under a clean HoldCo/OpCo corporate architecture with fully ring-fenced liabilities, CityClinic Group is engineered for an aggressive, multi-revenue growth trajectory targeting a **Year-5 exit valuation of €180,000,000 to €270,000,000** via an IPO on a European Growth Exchange.

The attached documentation provides a granular view of our financial pro formas, legal risk-shielding frameworks, and technological architecture. Following your preliminary review, we welcome the opportunity to grant your analytical team secure access to our virtual data room, **NazAura Sanctuary**, upon the execution of a standard non-disclosure agreement.

Thank you for your time, consideration, and strategic alignment.

Sincerely,

The Executive Board

CityClinic Group (HoldCo)
